**Congratulations New Driver!** You have passed your written test and now you may be wondering what the next step is. Please see the following information:

- . A Minimum of 50 hours of supervised practice driving with at least 15 hours at night (after sunset) with a driver over 21 years old is required before a road test can be taken.
- . You will need to take a 5-hour pre-licensing course or an approved driver education course to obtain the MV-278/MV-285 certificate and schedule a road test. You can call a professional driving school or you can contact the local schools to find out if the course is offered there.
- . You may schedule a road test after you have had your permit for 6 months. To schedule, call your local DMV office or 1-518-402-2100 or go online <https://dmv.ny.gov/schedule-road-test>.
- . If you are under 18, bring a Certificate of Supervised Driving (MV-262) completed by your parent/guardian with you to your road test and present it to the Examiner to certify that the required 50 hours of supervised driving have been completed.
- . Make sure you have your photo learner permit and valid insurance, registration and inspection for the vehicle you will be driving. Also bring MV-278/MV-285 and MV-262.
- . A driver age 21 or older with a valid license to operate the vehicle must accompany you to the road test.
