

St. Lawrence County Community Development Experience

For the past 30 years, the St. Lawrence County Planning Office has worked on a broad range of housing and community revitalization projects including: housing rehabilitation, homeownership assistance, public infrastructure (water and sewer projects), public facilities, and economic development. **During this time, the Planning Office has secured and delivered over \$32.8 million in program funding for housing, infrastructure, public facilities and economic development projects in St. Lawrence County.** These funds reflect only the program funds we secured and managed. Other leverage funds are not listed here; therefore, total investment is actually significantly greater.
